JOINT PROGRAM

PEOPLE & PETS

Thursday, February 18, 2010

11:30 a.m. - 5:00 p.m.

Hearthstone Manor

333 Dick Road, Depew, NY

University at Buffalo
The State University of New York

PRESENTATIONS

Risks and prevention of zoonoses

- What diseases can humans get from pets and vice versa?
- What can be done to minimize risks?
- How can veterinarians and physicians work together more effectively?

Zoonotic viruses and parasites

- How and which viruses/parasites transmitted from one species to another?
- Focus on worms with an update on Toxocara, Baylisascaris, etc.
- How should these viruses and parasites be treated?
- What should physicians and veterinarians know?

Benefits and hazards of human-animal bond

- How animals can improve people's health and happiness
- Human benefits of therapy animals visits in homes, hospitals, hospice center, physical rehab, etc.

Open to veterinarians, veterinary technicians, students and physicians. Visit NFVS.us for registration information.

ACCREDITATION

Veterinarians will receive 4 CE Credits. Each veterinarian should claim only those hours of credit that she/he actually spent in the educational activity.
